2023, hues of blue

A famous French song says, “people from the north have the blue in their eyes that’s missing from their decor”. Perhaps people from the south have blue in their hearts, their eyes turned to the endless horizon. From the turquoise which transports us to exotic places to the navy blue which suggests the depths of the Atlantic, blue sets the tone for this 2023 brochure.

Sometimes azure, sometimes indigo (like in the Mediterranean), blue promises the most beautiful summers and the fairest of skies. Cerulean in the Caribbean, cobalt in Northern Europe, ice-blue at the poles, it enchants, impresses and amazes in all seasons. It takes us along legendary sea routes all around the globe. It comes to life in the seas and oceans at the ends of the earth, which scientists study on board *Le Commandant Charcot*. It outlines the contours of the beautiful Polynesian islands. It accompanies the traveller on each of their journeys.

We’ve designed our journeys as varied and rich in experiences, giving meaning to each stopover. Discover the iconic itineraries that have made our reputation, from our “once-in-a-lifetime” must-sees to our “never-before-seen” adventures. In addition to the selection presented here, the 2023 calendar shows you all of the year’s departures. It’s an opportunity to (re)discover inspiring journeys... journeys which ignite your desire to escape to all four compass points of our blue planet.

See you on board soon,

Hervé Gastinel

Ten reasons to sail with PONANT

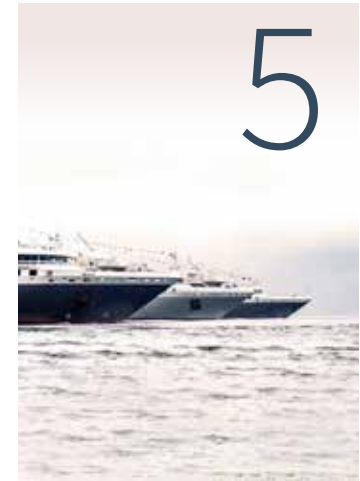

Travel expertise

Our specialists have been exploring the world in search of natural and cultural gems and treasures for thirty years. For the expedition cruises, they meet local populations and local authorities, assess the level of safety and security, and assemble a team of experts to guide and accompany you. For the yacht cruises, they choose fabled or secret, hidden and out-of-the-way ports of call offering new discoveries and experiences and a sense of the exotic.

Responsible travelling

In the polar regions, we are members of IAATO and AECO organisations, which bring together stakeholders in the polar area to develop more responsible tourism. We have obtained various certifications, including Bureau Veritas' *CleanShip* certification for our fleet.

Cultural enrichment

Each season, we create voyages imbued with a sense of meaning articulated around four major themes: Planet, Culture, Art of Living and Geopolitics. In order to provide you with unique experiences, we call on the expert skill and knowledge of our renowned partners, represented on board by inspiring artists, historians, researchers and journalists.

A more sustainable form of tourism

Through our foundation and our PONANT Blue Horizon and PONANT Science programmes, we go to considerable efforts to reduce our impact both on land and at sea (elimination of heavy fuel oils, the use of hybrid propulsion, waste and wastewater recycling and treatment, elimination of single-use plastics, etc.), and to contribute to scientific research (hosting researchers on board *Le Commandant Charcot*).

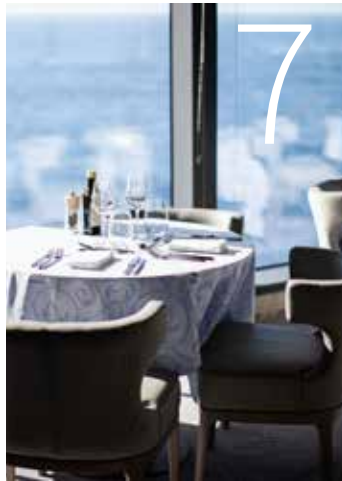

A safe, modern fleet

We are one of the few cruise companies to sail under the French flag – one of the safest in the world. We thus adhere to a range of strict requirements governing the training of our teams and compliance with health and safety protocols. Our intimately sized ships have between 16 and 165 cabins only and are equipped with the most advanced technologies available to ensure we sail and navigate in a responsible manner.

Lifestyle

Experience the comfort and elegant design of the public areas on board our ships. The swimming pool (except on *Le Ponant*), the fitness centre, the spa in partnership with famous brands (Hermès, Clarins, Diptyque, Biologique Recherche, Sothys and Algotharm) and the restaurants and bars all offer you a warm, welcoming and friendly atmosphere. Additionally, the onboard theatre also provides a venue for film projections, talks and conferences, and shows.

A complete offer

Everything is included on our cruises: full board; drinks (excluding the premium menu); room service; internet access; shows and entertainment; talks and conferences; access to the fitness area, the steam room or the sauna; and sea-based activities (except scuba diving). On the polar expedition cruises, the services of the naturalist-guides, the excursions, the onshore activities and the disembarkations by inflatable boat are all included. We also provide you with a parka and the loan of boots.

Your benefits

Advantages for solo passengers, family and friends, honeymoons and wedding anniversaries, cruise series, the referral programme, or PONANT Yacht Club loyalty programme: there are advantages for everyone!

Dining with PONANT

Prepare to be delightfully surprised by a range of generously portioned cuisine designed and put together by Ducasse Conseil. On the menu: fine breakfasts, à la carte dishes and varied buffets, home-made bread and pastries prepared on board, tea time specialities and luxury food and drink tastings. The service we offer on board *Le Commandant Charcot* now includes Nuna, a restaurant by Alain Ducasse featuring a menu devised and put together by the multiply Michelin-starred chef himself.

Tailor-made voyages

Our "À la carte" service enables you to book private excursions, nights in hotels and flights directly through our own travel consultants. For certain difficult-to-reach destinations, we even offer private flights and transfers. *Le Commandant Charcot* cruise guests also benefit from their own dedicated concierge service. Once you've booked, download the PONANT app and use it to guide you both before and during your voyage.

LE COMMANDANT CHARCOT

The first French ship to have reached the North Pole, and the only French ship of scientific opportunity able to navigate through the ice, *Le Commandant Charcot* offers you the experience of a uniquely different kind of polar adventure.

LEGENDARY ROUTES

William Baffin, Roald Amundsen, Jean-Baptiste Charcot, Paul-Émile Victor... The sea routes of the Far North are studded with the names of the great polar explorers. Retrace legendary routes and discover almost completely unexplored and unmapped coasts and shores on board *Le Commandant Charcot*.

RESPECT FOR THE ECOSYSTEMS

Le Commandant Charcot is packed with the most advanced technologies available in terms of reducing its impact on the environments visited. In particular, this first ever hybrid-electric liquefied natural gas powered extreme polar exploration ship combines energy recycling and quayside onshore power connections with waste reduction and elimination of single-use plastics.

A UNIQUELY GUIDED EXPERIENCE

The captains, officers and expedition team on board have in-depth knowledge of the polar regions. They ensure your safety while at the same time guaranteeing you the best possible experience each day. Made up of 23 experts - unique for polar cruises - the expedition team makes it possible for you to enjoy a fully immersive experience of the poles, notably through the many activities offered that imbue your voyage with meaning, such as kayaking, snowshoe trekking and polar ploungue.

SCIENCE ON BOARD

In keeping with our aim of promoting a more sustainable form of tourism, we actively support scientific research through the PONANT Science project. On board *Le Commandant Charcot*, international researchers can perform the same measurements year after year at often inaccessible sites and continuously record the data collected, thus furthering knowledge about these environments on an international scale.

A SUBLIMELY ENHANCED POLAR EXPERIENCE

Le Commandant Charcot features spaces never before seen on board our fleet. The Blue Lagoon (an outdoor pool heated using recuperated energy), the indoor pool, the snow cabin, the detox bar and the uninterrupted exterior promenade deck provide a complete connection with the outside scenery. When it comes to eating and dining, chef Alain Ducasse and his teams serve a range of fine, high-quality contemporary French cuisine.

A DEDICATED CONCIERGE SERVICE

The mission of the travel concierge service is to offer you tailored services such as private transfers, access to airport lounges, services at home during your absence and personalised shore excursions. You can contact them on +33 (0)4 91 26 62 20 or by email at conciergerievoyage@ponant.com.
